Our Values:

- **We believe in respecting the experience and intelligence of our students.**
- **We believe a strong work ethic can overcome deficiencies in technological know-how.**
- **We believe in keeping our students up-to-date with changes in the marketplace.**
- **We believe in the importance of integrity and due diligence as a way of preserving and growing one's capital.**
- **We believe the best training is systematic, organized, and thorough... while remaining personal.**
- **We believe learning is maximized in a community of those who share our goals.**

Why Source Directly from China?

- It's where the big Amazon sellers go to source from China.
- My meeting with a 10+ million dollar Amazon seller and the big breakthrough in his Amazon business came as a result of sourcing in China.
- Another Amazon & Shopify seller my marketing partner spoke with is selling a million dollars a month and he's sourcing from China.

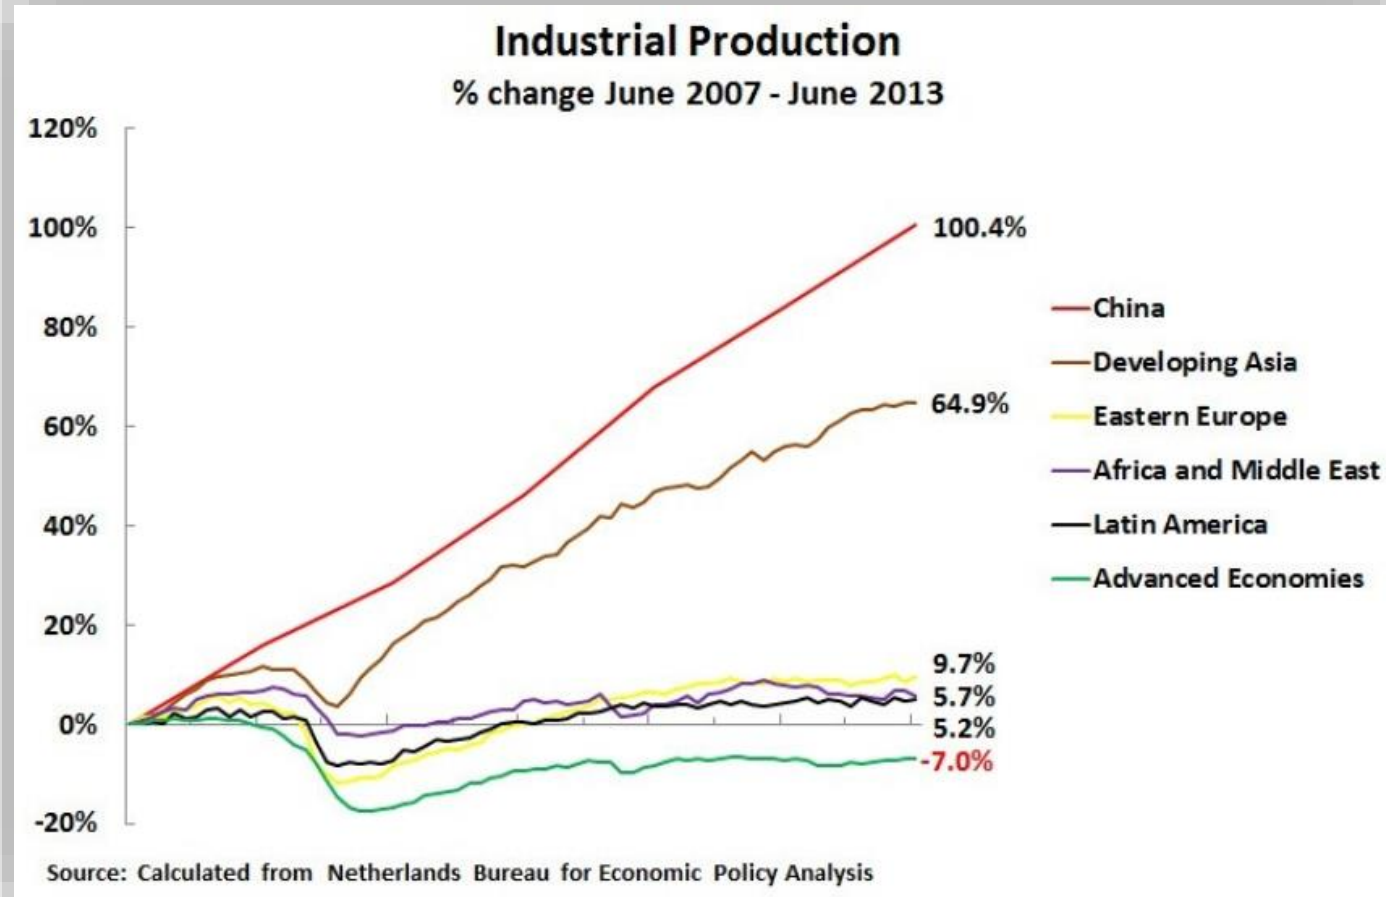

China is indisputably the Manufacturing Giant of the World. They've developed a high level management infrastructure with a cheaper labor force. This gives them a competitive advantage that's hard to beat.

Sourcing China
Home Study System

Let's talk about doing business in China through a handful of emails and skype messages via Alibaba....

E-COMMERCE
BUSINESS SCHOOL

© 2016 80/20 Marketing, Inc. | All Rights Reserved. | Do Not Redistribute

Sourcing China
Home Study System

The problems

1. No interest in ultra low MOQs from Chinese vendors
2. Chinese suppliers sacrificing quality and production lead times
3. Shipping damages via LCL.
4. Inability for Chinese factories to legally consolidate
5. Inspection of goods upon arrival, processing claims if necessary, and repackaging for FBA compliance and/or bundling
6. Starting orders cold - with no previous relationship with the factories

Sourcing China
Home Study System

Examples of questions from a recent mastermind session...

- You mentioned a spreadsheet to create a swipe file. What headings would you include? Is there an example of one in our back office?
- for OEM - besides searching online for people listing information for the same product - is there a way to check to make sure it's not already being trademarked, etc?
- Where do i go to get a booklet printed to accompany my product? Can I have someone put it together?

The bulk of our product selection is focused on products to sell on the Amazon Market Place. That may not be your focus but by following our training you will learn a way to sift and sort through product selections based on a data centric model. This is a smart business discipline to have.

China Sourcing Home Study System

你被邀请了

Many want to travel to China, but we discovered even far more want all the empowerment of our system and having a sourcing agent like Robert Sieg working for them in China.

Our home study was birthed out of our extremely fun and successful trips to China in response to your desire.

Your China Sourcing Home Study System prepares you well to Come to China the Land of Opportunity & Possibilities... and your investment is credited as a down payment to the next China Sourcing Trip!

See You in China!?!

Our first two trips to China were spectacular and created the foundation for our home study course.

Your investment into our home study is also applied to your actual trip to China when and if you decide to go.

As Brian Cummings, myself and others go and meet up with Robert Sieg in China, the ongoing and increasing connections and knowledge base of our Sourcing China Community greatly benefits all its members – even those who can't make the actual trip.

We hope you can join us on the next trip!

Sourcing China
Home Study System

Service from Robert - For Members Only!

It goes without saying that Robert Sieg is only 1 person and can effectively work for a limited number of people on sourcing projects.

Our membership will be limited to 100. After that, there will be a waiting list to get in.

In partnership with Robert Sieg, we want to maximize his talents and connections. We do that by educating and empowering our students in the process so they work efficiently with Robert as he labors for our members in China.

Just referring people to Robert Sieg without our home study course would undermine his ability to serve more people and would not serve people well who have never sourced from China before.

In this training you'll learn...

- Be aware of quality fade and what to do about it
- How to factor in the lead time when sourcing overseas
- How to get a jump over Alibaba to avoid people riffing off your product
- Learn the full status of business cards in foreign cultures
- Discover the importance of "face" in Asian cultures. It's not the same as in the U.S.!
- The importance of samples to avoid major quality control issues.
- The pain of not having a customs agent: Avoid getting product labeling lost in translation that can cost a bundle as it goes through customs.
- How to navigate through order placements to ensure a lower MOQ to test on the Amazon market place.
- What is a pro forma invoice and why you need it!
- And much more...

Fast Mover Bonus - Tonight's Webinar ONLY!
